Notification or Authorization by Donor Representative Please complete only one box.

Donor Document* Available (Notification by Donor Representative)	
There is a Donor Document reasonably available in which the decedent expresses the intent to make an anatomical gift. This document is attached (No signatures needed.)	
OR	
Donor Document* Not Available (Notification by Donor Representative)	
To the best of my knowledge, there is no Donor Document reasonably available in which the decedent expresses the intent to make an anatomical gift.	
1. <u>Consent</u> - Pursuant to the Revised Uniform Anatomical Gift Law, I donate the decedent's body as an unrestricted anatomical gift to Eternal Educational Gift Donation ("EEGD"). I understand that the donor's accepted body may be used for the purposes of education or research. I understand that the acceptance and exact use of the donor's body will be at the discretion of EEGD. In some cases such use may involve exposures to destructive or damaging forces (e.g., impacts, crashes, ballistic injuries, blasts). Examples of how the gift might be used for education or research include: medical education and training; forensic sciences (e.g., pathology, engineering, anthropology). I understand that EEGD reserves the right to preserve and retain individual tissues and organs from the donation for the purposes of education or research.	
2. <u>Applicable Law and Policies</u> - I understand this donation is subject to applicable law and EEGD policies in effect at the time of my death.	
3. <u>Duration of Donation</u> -	
Permanent Donation: EEGD will retain the donation indefinitely to be used in any manner EEGD deems necessary and appropriate, within or external to EEGD, without time constraints on the use of the donor's body. With permanent donation, the body will not be returned. Signature of Donor Representative

Definitions: *Donor Document means any writing expressing the intent to make an anatomical gift as specified under the Revised Uniform Anatomical Gift Law, Public Act 368 of 1978, amended 2008.

Frequently Asked Questions

What does The Eternal Educational Gift Donation do?

EEG Donation is a permanent, whole body donation program that helps individuals donate their body to medical studies. We do not perform any medical research, but we recover, process, store and donate specimens to medical universities.

Can I donate body parts, or the full body?

The EEG Donation Program will only accept whole body donations.

Are there age restrictions on whole body donation?

No, the body of any person may be donated with appropriate consent by the donor or donor's legal representative. The legal age for a person to sign donation papers themselves in the state of Michigan is 18 years old.

Do you guarantee body donation acceptance?

Unfortunately, we do not. Medical conditions including severely over or under weight at time of death, history of contagious diseases (hepatitis, HIV/AIDS, active MRSA, VRE, etc.) would make a donated body unacceptable.

Can I pre-register with the EEG Donation Program?

Yes, in fact many donors prefer to do just that, so their loved ones are not put in any position to do it after the donor's death.

Who benefits from whole body donation?

Whole body donations allow The Eternal Educational Gift Donation Program to contribute to new and modern developments in the study of anatomy and health. We work strictly with accredited medical universities, so you can rest assure that your gift will be properly cared for.

What does a permanent donation mean?

Permanent donation allows Eternal Educational Gift Donation to keep the donor's remains without time constraints. With Permanent Donation, the donor's body or ashes will not be returned to the donor's representative.

What are the costs to my family for donating my body to EEG Donation?

There will be no costs to the you or your family when donating your body to the Eternal Educational Gift Donation Program. However, there may be costs associated with the funeral home.

What happens to my remains? Will they go back to my family?

Considering the EEG Donation Program is a permanent, whole body donation program, there will be no remains returned to the donor's family. If there are any remains, the Eternal Education Gift Donation Program will

Will donating interfere with funeral arrangements?

Whole body donation will prohibit an open casket funeral. However, many families still choose to have a memorial service.

Public Acts of 1978 Article 10 Part 101 Excerpts from Act No. 368

Sec. 10102. (1) An individual of sound mind and 18 years of age or more may give all or any physical part of the individual's body for any purpose specified in section 10103, the gift to take effect upon death.

Sec. 10104. (1) A gift of all or a physical part of the body under section 10102 (1) may be made by will. The gift becomes effective upon the death of the testator without waiting for probate. If the will is not probated, or if it is declared invalid for testamentary purposes, the gift, to the extent that it has been acted upon in good faith, is nevertheless valid and effective

Sec. 10106. If the gift is made by the donor to a specified done, the will, card or other document, or an executed copy thereof, may be delivered to the done to expedite the appropriate procedures immediately after death. Delivery is not necessary to the validity of the gift. The will, card or other document, or an executed copy thereof, may be deposited in any hospital, bank, or storage facility or registry office that accepts it for safekeeping or for facilitation of procedures after death. On request of any interested party upon or after the donor's death, the person in possession shall produce the document for examination.

Sec. 10107. (1) If the will, card or other document or executed copy thereof, has been delivered to a specified done, the donor may amend or revoke the gift by any of the following methods:

- (a) The execution and delivery to the done of a signed statement
- (b) An oral statement made in the presence of 2 persons and communicated to the donee.
- (c) A statement during a terminal illness or injury addressed to an attending physician and communicated to the donee.
- (d) A signed card or document found on his person or in his effects.
- (2) Any document of gift which has not been delivered to the donee may be revoked by the donor in the manner set out in subsection (1), or by destruction, cancellation or mutilation of the document and all executed copies thereof.
- (3) Any gift made by a will may also be amended or revoked in the manner provided for amendment or revocation of wills, or as provided in subsection (1).

Sec. 10108. (1) The donee may accept or reject the gift. If the donee accepts a gift of the entire body, the surviving spouse, next of kin or other persons having authority to direct and arrange for the funeral and burial or other disposition of the body may, subject to the terms of the gift, authorize embalming and the use of the body in a funeral service. If the gift is a part of the body, the donee, upon death of the donor and prior to the embalming, shall cause the part to be removed without unnecessary mutilation. After removal of the part, custody of the remainder of the body vests in the surviving spouse, next of kin or such other persons having authority to direct and arrange for the funeral and burial or other disposition of the remainder of the body. Sec. 10109. This part shall be so construed as to effectuate its general purpose to make uniform the law of those states which enact it.
